Time can either be your ally or your enemy. The more time you have, the easier it is to plan and implement that plan. The less time, the more you rush. This is true with term papers, getting the children ready and driving them to school in the mornings and even planning for retirement. “A” students don’t cram the night before a test and successful investors certainly don’t cram for retirement the year they choose to retire. Peace of mind and security are “priceless”.

Over the last several decades, we’ve been blessed to advise and counsel many women about investing. Whether they are widows, single moms, business women or matriarchs, we’ve been able to help bring security and peace of mind with thoughtful advice to attend to their particular needs.

Every situation is unique. The desired results are usually the same: “Help me understand and navigate these choppy waters.” or “Give me a recipe that meets my needs.” Whether it be planning for retirement, planning for higher education, long-term health care, or a sudden death in the family, we’ve helped guide our clients through life changes, both planned and unexpected.

We take the responsibility of caring for our clients seriously and we cannot thank you enough for your continued trust and confidence in the Hardee Investment Group.

Even though we will no longer be writing the “Girls Just Want to Have Funds” column for Focus on Women, we hope you’ll continue to look for our column “Financial Savvy” in the Fort Bend Focus magazine.

Do you feel confident in your current advisory team? How about secure or at peace with your current portfolio? Want to know how it feels to use words like trust, confidence, security and peace of mind when you talk about your portfolio or advisory team? We strive to earn your trust and confidence daily and help you feel secure with your investments. Come see us. We’re waiting to help you to feel at peace with your finances.
