With 23 years of Banking experience, as a Senior Private Banker with TD Wealth Private Banking I have built my business centered solely on delivering what's important to health care professionals. I strive to help ease the stress of finances so they can focus on their practice and on spending time with their family. I work with a dedicated team of financial professionals in the areas of investment management and strategy, estate planning, trust, business banking, philanthropy and tax mitigation strategies, to develop a customized plan designed to help achieve my clients' vision of success.

I live and work in Hamilton and studied Business at Mohawk College of Applied Arts and Technology. I hold accreditations specific to Wealth Management such as Investment Funds in Canada (IFIC), Canadian Securities Course (CSC), and I am currently completing my Certified Financial Planner (CFP®) designation.
