Wealth management advice based on your unique goals

As an Investment Advisor, I have over twenty-three years' financial services industry experience. I lead a team of highly skilled professionals to work with a select group of clients, primarily made up of successful business owners, professionals and retirees. Our proven strategy is how we help our clients achieve their wealth goals and live a work-optional lifestyle. I've had the good fortune of helping many of my clients transition from their working career to a successful and enjoyable retirement lifestyle.

A graduate of the University of Manitoba, I hold a Bachelor of Commerce (Honors) degree with a major in Finance. I am married with two young boys who keep me active with their sporting activities and school fundraising programs.

I work closely with my TD Bank Group business colleagues including TD Wealth Private Banking, TD Commercial Banking and TD Canada Trust Retail banking.

I enjoy working with people who aspire to make the most of the life they're living. Live with purpose, embrace each moment and look forward to a rewarding and bright future ahead.
