As a Senior Private Banker, I have over 25 years of banking experience including more than 7 years in Private Banking. I take great pride in fostering exceptional relationships with my clients while striving to provide holistic solutions and handling requests with great professionalism and accuracy.

I work solely with health care professionals, thus ensuring comprehensive, personalized service. Using TD's distinctive Discovery process; founded on the principles of behavioral finance, it allows me to focus on simplifying my clients' lives. With astute counsel, disciplined planning and effective risk management, my clients have tailored strategies for the various stages in their personal and professional life cycles.

In addition to my services, when appropriate, I can engage TD specialists who can help assemble a comprehensive plan. This plan covers the complexities of tax planning, cash management, long-term investing, estate and will planning and trust services. I act as the main point of contact for my clients and guide them through each channel of professional advice to help them meet their unique financial needs.

I hold a Bachelor of Commerce from Saint Mary's University and the Personal Financial Planner (PFP) Designation from The Canadian Securities Institute. In my spare time you will find my wife and I spending time with our two daughters at many hockey rinks cheering on their hockey teams.
