As a Senior Private Banker, I have over 30 years of banking experience including more than 10 years of business banking specializing in health care. I take great pride in delivering exceptional client care while striving to provide innovative solutions and handling requests with great professionalism, accuracy, and speed.

My team and I work with a limited number of health care professionals, thus ensuring personalized service and attention to detail. This focused approach allows our team to spend more time simplifying our clients' lives, while providing insightful counsel, disciplined planning and effective risk management for various stages in the life cycles of health care professionals.

Our team of wealth professionals work closely to strive to deliver strong results to my health care professional clients. When appropriate, we can engage TD specialists who can help us to assemble a comprehensive plan, which covers the complexities of tax planning, cash management, long-term investing, estate and will planning and trust services. I act as the main point of contact for my clients and guide them through each stage of their lives with the utmost care and professional advice, while providing a customized wealth plan to help them meet their unique financial needs.

In my spare time you will find my husband and I spending time with our two sons, who are both in University studying to become medical professionals and cheering on our son with the GeeGees football team.
