As a Senior Private Banker, I have the privilege of working with clientele focused exclusively in the health care segment. My role is to provide busy medical and dental professionals access to the dedicated service and customized financial solutions they require.

I bring over 30 years of experience to my clients, gained through senior roles in retail, wealth and commercial banking. Having worked closely with health care professionals for many years, I have the industry experience to execute the complex banking and credit needs that are often required. It is my responsibility to champion the TD team that can support you in each area of your financial wellbeing including: wealth management, day to day banking, credit solutions and business banking. I also engage with TD specialists in tax, succession and estate planning to provide holistic solutions.

I work with a limited number of clients which allows me to provide fast, flexible and personalized service with a high attention to detail.

It is my goal to work in collaboration with you and your family to achieve what matters most to you.
