About Me

Ultimately, my goal is simple; help my clients live more enjoyable lives by knowing that they have a plan in place to achieve their goals.

While anyone can stumble upon my site, it's really designed for clients, friends, and those interested in my work. Most people who find this page will already know a little about me but for those that do not, I believe in full disclosure.

I was born in Victoria shortly after my mother, a farmer's daughter from a town of 200 in northern Manitoba, moved west to chase the ocean and get out of the snow. My cultural background and habitual tan come from my estranged Jamaican father. Growing up in a single parent home for a large portion of my childhood, I can appreciate the hardships and joys of lean times and coming out the other side. As such, I sit on the Inclusion, Diversity and Equity Board for TD's Pacific Region.

I am husband and father to one child, so far. Outside of the office you'll typically find me playing any combination of soccer, golf, tennis or football when the sun shines and on the top of a ski hill when the snow falls. My addiction to experiences over things has transcended into a desire to understand new cultures and my family and I strive to travel somewhere in the world we've never been at least once a year.

One of my other passions in life is learning. Academics aside, I have enjoyed every minute of my learning experience in the financial industry. I have been managing wealth for clients at TD since 2009 coming from a financial planning background in Victoria. Within TD Wealth I founded the Snow Wealth Management Group and I quarterback our Perpetual Wealth Planning Process utilizing my financial planning background. As you read on, I hope that you get a sense that with the team behind me, I can anticipate and support all of the financial needs of our clients. As a portfolio manager, I also oversee the construction and execution of all client's investment strategies.

I believe that investors deserve sound and objective financial advice during good times and bad. I have found that clients' confidence increases when they have a solid foundation to focus on leaving the day-to-day nuances of investment management to us.
