What we offer

To help you meet your goals, we take a comprehensive approach that extends beyond investing. We offer you the relevant, customized wealth advice you deserve – and we can do that only by fully understanding you.

As your needs change and evolve over time, we will tailor our services and solutions strategies accordingly. Whether you are building your career or business, or shifting into retirement, we believe that our disciplined planning approach will help make you more confident in your decisions, and more focused on your future.

Our client-centred approach

Our relationship with you is the key to offering you tailored wealth strategies. The insight we gain from working with you is the basis on which we design your unique strategy that fits your goals. We understand what makes your situation different. We actively listen and gather in-depth information to establish a clear understanding of your goals.

We believe that your personal wealth strategy is key to your financial success. However, before we can begin to build your plan, we take the time to develop a deep understanding of you.

Understanding you

We start with a deep understanding of who you are, your values and your vision of success. This means reviewing the financial decisions you've made over the years, the goals you've set for yourself in the years to come, and the ways in which these reflect what is important in your life. To create your personal investment and wealth plan, we leverage our broad expertise to fit your unique needs.

We summarize our understanding of your financial priorities and needs to make sure you're in agreement.

4 **Determine Solutions**

Our experienced team works together to develop a personal strategy that is designed to help you meet your specific goals.

5 **Present Solutions**

We present your strategy to you for discussion and approval.

6 **Implement Solutions**

We work with you to put your strategy into action.

A disciplined approach to investment management

Investment management is one of our key strengths and the cornerstone of every wealth strategy. Our investment philosophy is rigorous, disciplined and comprehensive, with a balanced approach to wealth preservation and growth.

We also draw on the expertise of a variety of TD investment professionals and risk management specialists. They provide our team with economic and market research that helps us not only manage your portfolio, but also identify the opportunities that lie in market shifts.

Getting the appropriate investment advice is a key part of managing wealth. But it's just one part of a bigger picture. You may also need to manage ongoing finances, minimize taxes or structure your estate in a tax-efficient manner.

Integrated wealth services

We take an integrated approach, bringing in other TD specialists as required to develop a custom wealth strategy. We assemble as a team in developing the solutions you require, such as:

- A retirement plan
- Tax mitigation strategies
- Business succession advice
- Private banking solutions
- Customized credit
- Asset protection strategies
- Philanthropic planning
- Estate and trust services
