# LifeSync

# Clarity you need to bring your plan to life

## Account Aggregator and eMoney

What do you really want to accomplish with your money? Do you have enough, not enough, or more than enough to accomplish what is important to you? Your financial advisor can help you answer those questions through the LifeSync℠ experience. LifeSync provides an approach in an effort to align your financial objectives to your personal aspirations to create your personal path to the life you want to live.

LifeSync leverages many tools and capabilities to help you maximize the impact your money will have on your goals and aspirations. Our Account Aggregator tool allows you to organize your money and provide you a better understanding of where you are right now in your financial life. You can then align your money with what you want to accomplish with the help of eMoney Advisor® tool. Account Aggregator plus eMoney can create a foundation for a successful path to help you reach your goals.

### Account Aggregator — Get organized and view your financial picture

If your assets are spread across a number of places, it can be challenging to get a clear view of your finances. The LifeSync experience can help with the Account Aggregator tool. Account Aggregator makes it easy for you to get a complete picture of your net worth across all of your financial institutions, including Wells Fargo & Company accounts.

Once you take the first step of gathering your full financial picture, then you can begin to determine what goals you want to accomplish with your money. From there, your advisor can help make your money-to-goals alignment a reality with eMoney.

## eMoney Advisor® — Connecting your money to what is important in your life

What is important to you? Retirement? Your children's education? Travel? A key element of LifeSync is the eMoney Advisor, an industry leading planning tool. eMoney helps you see and think about your money in more deliberate ways. It can help you set and track progress towards the goals and objectives that you really want to accomplish over time.

**All investing involve risks, including the possible loss of principal. There can be no assurance that any investment strategy will be successful. Investments fluctuate with changes in the market and economic conditions and in different environments due to numerous factors, some of which may be unpredictable. Each asset class has its own risk and return characteristics. The level of risk associated with a particular investment or asset class generally correlates with the level of return the investment or asset class might achieve. Be sure you understand and are able to bear the associated market, liquidity, credit, fluctuations in yields and returns, style and sector-specific risks and employment of complex trading strategies and aggressive investment techniques, as well as the specific risks involved in an investment in a particular product.**

Wells Fargo Advisors is a trade name used by Wells Fargo Clearing Services, LLC, Member SIPC, a registered broker-dealer and non-bank affiliate of Wells Fargo & Company.
