

Accident Insurance

Don't Let an Accident Drain Your Bank Account

What is it?

Accident insurance pays you a lump-sum cash benefit for injuries that come from a covered accident, like a burn, a broken or fractured bone, or a concussion.

This payment can be used any way you choose, including:

Unexpected medical bills

Household expenses

Child care

The Basics of Accident Insurance

Why do you need it?

- Helps pay unexpected costs: Even minor injuries can result in high medical bills.
- Can help fill the gaps: Your health insurance may not cover everything, including your deductible, copays, and out-of-pocket costs.
- Allows you to focus on what's important – getting better. After an accident, the last thing you need to worry about is how to pay the bills.
- Portable: If you happen to leave your employer, you can take this coverage with you.*

How Your Coverage Works:

1. If you or a loved one covered under your plan should have an accident, file a single claim online in a matter of minutes.
2. We send you a lump-sum payment quickly and easily – and you decide how to use it.
3. Should you have another accident in the same coverage year, your benefits get paid again.

* Portability is referred to as Continuation due to loss of Eligibility in some states. Refer to your certificate for more details after enrolling
